PROFILE

I have experience in administrative and operational processes, with knowledge of ERP systems such as SAP Business One for the management of its different modules and data control. Recognized for information organization, report generation, and internal user support. I also have a technical foundation in development and databases, which allows me to optimize processes and adapt easily to technological tools.

EXPERIENCE

Junior Consultant - Advance Consulting One - December 2025 - May 2026

- Management of administrative processes supported by technological tools and ERP systems.
- Administration and control of data in SAP Business One (purchasing, sales, and business partners).
- Updating and maintenance of information through mass data uploads (DTW).
- Preparation of operational reports for information analysis and tracking.
- Basic technical support in systems, databases, and digital tools.

Operator - Boston Scientific - 2022-2023

- Manufacturing of high-precision medical devices following critical production procedures.
- Active participation as a "Quality Champion," ensuring compliance with standards on production lines.
